Arafath A

Full Stack Devloper

Profile

I'm always eager to take on new challenges and contribute to innovative projects. If you're looking for a developer who is not only skilled but also passionate about creating exceptional digital experiences, I'd love to connect. Feel free to explore my projects and get in touch for potential collaborations!

Work Experience

● **Oct 2021- Present**
Capgemini Pvt Ltd l Hyderabad, India
Senior Software Engineer
Over 2.5 years of software development experience in COBOL, DB2 technologies.
Involved in various phases of a project life cycle including Coding, Test Plan Preparation, Unit Testing, and deployment.

Projects

1. Weather App   js

Developed a Weather App using JavaScript with real-time weather data fetched via Promises. Designed for ease of use, the app allows users to input locations and receive accurate weather forecasts instantly.
Live Demo : https://enchanting-naiad-4729c7.netlify.app/

2. Travel Blog   React.js

"Developing a vibrant Travel Blog with React.js, utilizing CRUD operations and integrating user registration/login features via axios with mockapi.io for realistic data interactions.
